**SUPPLEMENTAL DECLARATION
FOR REISSUE
PATENT APPLICATION
TO CORRECT "ERRORS" STATEMENT
(37 CFR 1.175)**

Attorney Docket Number 043850.016

First Named Inventor HEATH, Randall

COMPLETE if known

Application Number 10/ 673,074

Filing Date September 26, 2003

Art Unit 3673

Examiner Name SAFARI, Michael

I/We hereby declare that:

Every error in the patent which was corrected in the present reissue application, and which is not covered by the prior oath(s) and/or declaration(s) submitted in this application, arose without any deceptive intention on the part of the applicant.

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

I/We hereby declare that all statements made herein of my/our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under 18 U.S.C. 1001 and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Continuation of "at least one error upon which reissue is based":

Claim 2 is being broadened to replace the limitation that a plurality of apertures must be located "intermediate said second side wall and said upwardly extending longitudinal wall" with a broader limitation that the apertures be located "proximate said upwardly extending longitudinal wall". The limitation of claim 2 in issued patent no. 6,324,796 stating that the apertures must be located "intermediate said second side wall and said upwardly extending longitudinal wall" is an error because it unduly restricts the location of the apertures.

Claim 10 is being broadened to remove the limitation in element (d) that the surface tread comprise a series of "longitudinally extending" lands and crests. The limitation of claim 10, element (d) in issued patent no. 6,324,796 that the lands and crests must extend "longitudinally" is an error because it unduly restricts the orientation of the lands and crests. The phrase "longitudinally extending" in Col. 6, line 5 of patent no. 6,324,796 is an error because it restricts the orientation of the lands and crests in a manner less than the patentee had a right to claim.

REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)
043850.016

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 6,324,796 granted December 4, 2001 and for which a reissue patent is sought on the invention entitled MODULAR DECKING PLANKS,

the specification of which

☐ is attached hereto.

☒ was filed on 09/26/2003 as reissue application number 10 / 673,074
and was amended on May 5, 2005.
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Claim 1 is being broadened to replace the limitation that a plurality of apertures must be located "intermediate said second side wall and said upwardly extending longitudinal wall" with a broader limitation that the apertures be located "proximate said upwardly extending longitudinal wall". The limitation of claim 1 in the issued patent stating that the apertures must be located "intermediate said second side wall and said upwardly extending longitudinal wall" is an error because it unduly restricts the location of the apertures.

Claim 2 is being broadened to replace the limitation that a plurality of apertures must be located "intermediate said second side wall and said upwardly extending longitudinal wall" with a broader limitation that the apertures be located "proximate said upwardly extending longitudinal wall". The limitation of claim 2 in issued patent no. 6,324,796 stating that the apertures must be located "intermediate said second side wall and said upwardly extending longitudinal wall" is an error because it unduly restricts the location of the apertures.

Claim 10 is being broadened to remove the limitation in element (d) that the surface tread comprise a series of "longitudinally extending" lands and crests. The limitation of claim 10, element (d) in issued patent no. 6,324,796 that the lands and crests must extend "longitudinally" is an error because it unduly restricts the orientation of the lands and crests. The phrase "longitudinally extending" in Col. 6, line 5 of patent no. 6,324,796 is an error because it restricts the orientation of the lands and crests in a manner less than the patentee had a right to claim.
